Cagin blocked of Grant's shots with Wood and Evans May Join Party That Will Bid for Foreign Honors This Year.

At least four championship golf tournaments that were held outside of the metropolitan district in 1913 are scheduled for clubs in this vicinity this year, and as : result it may be expected that the cream of the American talent of all classes will

There will be, in the first place, the women's national championship at Nassau, on September 14 to 19, which makes up for the transfer of the national amateur to Ekwanok. Vt. Thus this part of the golfing account is balanced. There will also be the women's Eastern champlonship and the tri-city matches for the Griscom Cup at Greenwich on June 1 to 6, both of which were held at Brae Burn, Mass., last June.

All this means that the finest women golfers of America and England will centre their attention in the vicinity of New York practically on every occasion of importance. Miss Gladys Ravenscroft, the English girl who won the American championship last fall, and her compatriot, Miss Muriel Dodd, champion of both Canada and England, will be here to play

The intercollegiate championship is on the card for Garden City September 7 to 12. coming here from the Philadelphia district. It was held at Huntingdon Va!ley last fall. Conditions governing the tournament have not yet been announced. It is also the turn of the metropolitan association to look after the tri-state matches for the Lesley Cup this fall. Two years ago these contests were, run off at Huntingdon Valley and last year at Brookline, shortly after the national open championship. Here, too, conditions have THINKS ENGLAND IS not been decided upon.

The rules are of especial interest this year in view of the controversy over the proposed substitution of four ball matches for foursomes. Pennsylvania officially Holds Opinion That Hard Court cially opposes the change and the metropolitan players have voted strongly in favor of four ball matches.

Three men have the entire decision. They are Herbert Jacques, president of the Massachusetts Golf Association; Robert W. Lesley, donor of the cup, who is president of the Pennsylvania State Golf Association, and Darwin P. Kingsley, the new chief executive of the Metropolitan Golf Association. Jacques and Lesley have expresed their opinions as being the desires of their respective territories. Kingsley, when asked for a statement the other day, said he preferred to say nothing at this time, so the situation stands at present deadlocked.

Just what course will be chosen for the Eastern interscholastic championship is a matter for conjecture. Max R. Marston. the president last year, is no longer in the schoolboy ranks, and the chief executive is now Horace Henderson, of Pawling. There has been some talk of the tournament going to a Philadelpuhia club as a means for stimulating interest in the competition, but nothing official has been done. Plainfield was the venue last

Word from the West is to the effect that Warren K. Wood, the Western amateur champion, will try his fortunes abroad this year along with Ouimet. Travers, Herreshoff, Lockwood, Schmidt and Marston. Wood has been considering the trip for some time, and it may be that Charles Evans, jr., will decide to joint the party and thus make the American entry in the British and French championship the most representative that ever has made a bid for foreign

Lehigh Five Wins Hard Game. [By Telegraph to The Tribune.]

S. H. VOSHELL. France May Send Team

of Lawn Tennis Players

of Home and Home Games.

LOSING SUPREMACY

Play Is Responsible for Increase in Speed.

France has long desired to send a team of lawn tennis players to this country, according to George Aranyi, of Paris, who is competing in the national indoor championship tournament, at the

"A French and American team match would be greatly to the benefit of both nations," said M. Aranyi, who is rated as the tenth best player in France. know that the French players stand ready to arrange the matter if it can be diplomatically brought about.

"Of course, the expenses of the French team coming to America would be paid by the Americans, and the next year when an American team visited France the French association would naturally pay for its transportation and entertain-

M. Aranyi laughed heartily when it was pointed out that this might be regarded, under the proposed new amateur rules, as professionalizing the players. "Pouf! Pouf! That, as you say, is nothing to worry about," was his comment. "I am greatly interested in American

lawn tennis, and as I expect to remain May Enter Team for Next Lawn approached. through the season here. I hope to play in many of the tournaments," said M. Aranyi. "In France and Germany we seem to give more attention to the details

first five minutes, when the Brown and armories where indoor lawn tennis is chance to repeat her successos of last essary to secure a permanent executive Clark, Curtis for Adams and Dobbs for Wil chiefly played in this country such an summer, when the team proved itself one secretary and have appointed A. Jackson letts on Harvard, and G. Peacock for arrangement is not practicable, and as of the best entered in the series.

M. Aranyi Proposes Series they stand, your tournaments are most admirably conducted.

> "The French and German players, because of competing so much upon hard surfaces, both indoor and out, are rapidly reaching the top in Europe. André H. Gobert, who is the No. 1 on the French list, has beaten Wilding a number of times on hard courts. Otto Froitzheim, a really great player, leads the Germans. "It is the spectacular effects of fast play on hard surfaces which has made it possible for leading French and German players to beat the English. The English are much on grass, which has slowed up their game. The fire and dash with which the younger French and German players are working is lacking in the English game, and now they are turning to hard courts. "England is badly off for players. While the game is booming in France and Germany, England feels that its supremacy is threatened, if it has not disappeared completely, for your great champion, Mc-Loughlin, needs only a little more strength on his ground strokes and backhand to rise as the greatest player in the world at this time. Wilding and Parke both beat McLoughlin by consistently attacking his weakness."

The French player believes that a team of his own countrymen and Germans will surely be seen here this season for the Davis Cup matches. All of the Europeans are greatly interested in the development are travelling in good enough form to of the American game, for, as M. Aranyi says: "All of the novel plays, the great inventions of service and thrilling strokes with the racquet, have been devised by

Americans." "This year will be a great one for lawn tennis," continued the young Frenchman, "and it will be a rremier one for America, with the great contests for the Davis bowl. I have travelled all over the world and lawn tennis is everywhere. All classes are playing it, and it is attracting thousands of new followers each year."

LIKELY TO BREAK **SWIMMING MARKS**

GUSTAVE F. TOUCHARD.

Meets of This Week Will by both teams. Although Harvard played Bring Out Fast Men at Standard Distances.

Followers of college water sports have commented on the lack of new records in the season's league tournaments, for was confidently anticipated last fall that almost every association standard will go by the board. The confidence was not unwarranted, as there are several swimmers in the 'varsity ranks fast enough to establish better figures than those on the books, but want of opposition and poor luck have so far interfered with their form.

During the coming week, however, two neets are scheduled-Yale vs. Pennsyl= vania and Princeton vs. Columbia-which promises to afford keen competition and

bring about the expected performances. Yale and Princeton are both thought to be able to shatter the 200-yard relay mark of 1 minute 44 4-5 seconds, and the opportunity will be offered them to attck it, for the two meets will be held in 75-foot pools. The New Haven quartet, in particular, should succeed in the effort, as it will find a speedy competitor in the Pennsylvania team.

At fifty yards there are half a dozen sprinters threatening the 26 seconds record. Last Thursday, in spite of a collision which hurt their chances. Samuel Ouerbacher, of Pennsylvania, and Harry of the Crimson goal, and, passing it out O'Sullivan, of Princeton, covered the distance within inches of each other in time that equalled the standard, and Roberts, Summers, Mayer and Hoadley, of Yale, have beaten the mark in practice.

The 100-yard figures, 58 3-5 seconds, are harder to wipe out, but Cross and O'Sullivan. of Princeton, as well as Ouerbacher, turn the trick, if pressed.

As to the furlong time, 2 minutes 36 4-5 seconds, Eben Cross, the Tiger captain, appears to be the only one in line for laurels. He is so reliable and has so often shown under 2 minutes 35 seconds in trials under the watch that it will be surprising if he fails to officially improve the puck in the rear of his own cage, and, the record, which he holds, before the championship carnivals draw to a close. The only mark that is practically out of danger is the plunge for distance. Not a man has come within yards of the 80-CANADA COVETS DAVIS CUP foot classic created by Willis, of Pennunlikely that it will be surpassed or even

NEW AUTO SECRETARY

BOWLING NEEDS **OPEN COMPETITIONS**

Well Known Follower of Game Says Tourneys Are Too Greatly Restricted.

NO ENCOURAGEMENT FOR AVERAGE PLAYER

Engagement Lists at Big Alleys Show That "Rolling for Fun" Is General.

Governmental organizations in bowling will never be truly representative of the game in its broadest scope until much greater recognition and encouragement are given the followers of the alley game who roll in competitions especially arranged for social, commercial or fraternal groups. This was the opinion expressed by a well known student of the game last week.

The opinion is not entirely new, for it has been expressed countless times in the last decade, even by so well known a man as John Clingen, former president of the New York Bowling Association, during his administration.

"The time has come when this much talked of step must be taken," said the speaker. "If a census of bowlers could be made it would be found that two-thirds of the tournaments are closed to those of a certain qualification. There are, then, a vast number of persons who roll merely for the fun of the game, in private parties and so on, and these people are in every walk of life. I'll warrant you if this academy alone could be canvassed sufficient proof would be found right here."

This conversation took place in Thum's White Elephant Academy, and, suiting the action to the word, reference was made to Anselm Endreas, the manager. Endreas produced his book of engagements. The result was astonishing to even a man familiar with bowling from beginning to

The faculty of the Stuyvesant High School comes one afternoon a week for a few hours of bowling. There are no tournaments in which this club is engaged, but they roll regularly and in an organized manner. Then the women teachers of Public School 2 have a pair of the private club alleys one afternoon each week. Stenographers, secretaries and women "Hobey" Baker Leads the clerks of the Mutual Life Insurance Company have another party each week.

Passing down the list, a big oil company has a bowling club at Thum's, where the managers of various branches meet regularly. One of the transatlantic steamship lines, two banking houses, a contracting firm, a department store in this city, a printing institution and a tobacco THROUGHOUT GAME firm are others from the employes of which clubs have been organized for bowling purposes.
