THE STORY OF REVILLON FURS

One of the Revillon Schooner Fleet

This schooner is one of a fleet of 12 taken North on two successive springs on the deck of a Revillon steamer. While navigation remains open they ply busily from post to post on Hudson's Bay and its tributaries collecting the furs which the traders have accumulated and distributing food and other necessities to the various stations. In winter communication between these posts is by dog sledge across the ice, and between seasons when there is neither open water nor sound ice the traders must content themselves at
