If these ships did stop at Halifax, experts considered it not at all improbable that they would continue to their port of origin in the States by making Boston, or even Portland, Me., their port of call.

LASKER AND MELLON MOVE TO ENFORCE "DRY" SHIP ORDER

Washington, Oct. 7.—The executive branch of the Department of Justice today of the interpretation of the Prohibition Amendment and the Enforcement Act by the legal branch as prohibiting the transportation or sale of liquor on American vessels wherever operated and the presence of liquor on foreign ships anywhere within American territorial waters.

Acting on orders issued by President Harding immediately after publication yesterday of the opinion handed down by the Department of Justice, Chairman Lasker of the Shipping Board was moving to stop at once the sale or transportation of liquor on government ships, while Secretary Mellon was proceeding to give notice to private owners, the prohibition as to both to take effect at once or as soon as vessels reach home ports.

Move by Foreign Lines Awaited. The next development awaited in the situation, as foreseen by both Attorney General Daugherty and Chairman Lasker, was a move by foreign lines to secure a final determination in the courts of the application of American Dry Laws to foreign ships entering American territorial waters.

In the opinion, these were construed to include waters not only within the three-mile limit of continental United States, but also of the Philippines, Hawaiian Islands, Porto Rico, the Virgin Islands and Alaska, the Panama Canal Zone being exempted because of its specific exemption in the enforcement statute itself.

With the Government already advised that a case is about to be filed which would bring the issue as to foreign ships to the Supreme Court, Chairman Lasker was of the opinion that the foreign lines would first seek to restrain enforcement of the law by an injunction which he said was reasonable to suppose the courts would grant.

Mr. Lasker foresaw not only a stay of enforcement of the law, but also of this course, but also expressed the opinion that, regardless of the decision of the Supreme Court, American ships would be put at a permanent disadvantage, citing as an illustration that even though the interpretation as to foreign ships were upheld, it would not prevent their selling liquor up to the point where remaining stocks could be dumped overboard.

COLGATE'S NEW HEAD SAYS RULE MUST BE BY THE ARISTOCRACY (Special to The Eagle.) Hamilton, N. Y., Oct. 7.—Dr. George Barton Cutten was inaugurated as president of Colgate University yesterday. Friends and alumni of Colgate University, in an attendance of alumni the largest since the centennial celebration in 1919, were on the campus. Approximately 100 delegates and presidents of other universities were in attendance, among them being Dr. Livingston Farrar, president of Cornell University, who delivered the introductory address. Dr. Cutten said among other things:

"There must be some solution to the problem of government, and we must find it. We are in a predicament that we are and have been, since the revolt against autocracy, ruled by the intelligentsia. More than ever the rule must be by the aristocracy, but it must be the aristocracy of the intellect. It must be the most intelligent, but it must also be the most benevolent, inclined, and willing to admit others to its membership who are fitted to belong. Democracy then comes to be a government of the people, for the people, by all those of their number fitted by intellectual ability, moral ideals, and careful training. The ruling has always been by the few intelligent members of the community or the nation, and in America the aristocracy has always had the open shop."

HIRSHFIELD'S PROBE OF RUSSIAN'S OFFICE "POLITICAL," SAYS D. A.

"Routine" Investigation Turned Out to Be Something Else. Celler Called a "Hyphenate Candidate." "I want to know what sort of a hyphenated politician I am running against," demanded Congressman Lester D. Volk of the 5th District last night at the headquarters of the Kings County Republican Club, 202 Patchen ave.

Volk also charged that his opponent, Emanuel Celler, is resorting to unfair tactics and indulging in a campaign of misrepresentation. "What sort of a platform is my opponent running on?" asked Celler. "Does he favor Democratic or Republican policies? Why is he silent on the veterans' adjusted compensation question? What does he say about the immigration bill that has caused such concern to our country? If he knows the minds of the voters just as he does about these questions then I wish to speak before a civic body in this district. I was admonished not to talk on any political topic. Yet when I sought to obtain that same protection of the law, I was told to hand out my opponent's campaign cards and the place was packed with many of his friends."

Volk stated that he was for light wine and beer, against any further restrictions of the Volstead act, and in favor of a ship subsidy bill, "because I believe that American ships carrying American goods should be manned by American sailors." District Attorney John E. Ruston launched an attack on Congressman Volk in a letter to the Commission of Accounts. David Hirshfield, about three weeks ago a man came to my office with a letter from Hirshfield. In that letter, which I have here, he charged that I was in violation of the provisions of Section 119 of the city charter, he proposed to conduct an investigation in the District Attorney's office, the method of accounts. I assumed that this was a perfunctory examination. I did not suspect that he had an ulterior purpose, but thought nothing of it, and over ten years the commissioner of Accounts had never made an examination of this office. This was an unusual thing.

Others who spoke were: Judge Frank S. Gannon, candidate for Supreme Court; ex-judge William R. Williams, candidate for the State Senate; Senator Lockwood and Attorney Thomas J. McGann. "Brooklyn is far behind other cities in providing for its maternity mothers," said Dr. James J. McLaughlin, superintendent of the hospital. "Such a condition is a menace to public welfare."

MATERNITY HOSPITAL DRIVE WELL STARTED

Three \$50,000 subscriptions have been received from members of the hospital board toward the \$1,000,000 drive now launched for the maternity wing of the Episcopal Hospital at 7th ave. The drive is being conducted by the Methodist Episcopal Churches in Brooklyn and Queens. Several \$5,000 gifts and a number of smaller ones had also been turned in up to last night.

In the past year the M. E. Hospital cared for 5,969 patients, Alfred P. Sloan, chairman of the committee declared. This was the largest number in number of recoveries were sent out in this year than ever before, and there was a marked decrease in the percentage of deaths. All subscriptions mature before March 21, 1924, which is the end of the next conference year. They may be made at home, in two or more installments, quarterly, monthly or weekly. The campaign to raise the \$1,000,000 will run from Oct. 15 to Oct. 25. Thirty-one of the 57 churches in Brooklyn and Queens were represented at the meeting last night and told of the drive in their particular church. A resolution was passed by the meeting to the effect that: This hospital is a memorial to the Methodist churches of Brooklyn and Queens, hereby express its appreciation of any action by the National Board of Christian Work, or any other authorities through which a portion of the \$1,000,000 fund may be raised to the Brooklyn Methodist Episcopal Hospital."

distance of 75 yards on either side of culvert crossing the roadway on the theory that the gun may have been thrown into the water. They found nothing. They have also interviewed 17 men living in the vicinity of the express establishment that every one of them told substantially the same story. They all said that they had seen Mrs. Mills and the doctor together, but thought nothing of it, and declared that the doctor was a big-hearted man and that they had observed nothing except such friendship as a physician shows toward any member of his congregation. The state troopers say they learned that the choir held an informal meeting at which they decided what attitude they would take if they were questioned. It was believed that one of the reasons why Willie Stevens was examined again was to better prepare the authorities for the crying need of millions of people.

Carmine of the Fort Hamilton military reservation appeared in court and told Magistrate Reynolds that a number of soldiers had been obtaining bad whisky in the district, with the result that several of them had been sent to the hospital. This was a continuation of Krueger's business, which was held in \$1,000 bail for a month.

SILVER CREST WINS CORN IN STAKES AT PIPING ROCK SHOW

Women Ride Majority of Mounts. Several Are Thrown. (Special to The Eagle.) Locust Valley, L. I., Oct. 7.—Under warm summer skies and with no suggestion of its usual accompaniment of autumn, the twelfth annual Piping Rock Show was the magnet for several hundreds of persons yesterday, the majority of whom are well known members of the Long Island colonies. Chief interest in the show centered in the classes for the hunters, which were shown in the afternoon, and with women riding nearly all of the mounts, there were numerous thrills when several of the fair sex were thrown from their mounts. Miss Natalie Hess, Miss Betty Barry, a newcomer to the show, and Miss Ruth Page, Miss Ruth Page, Mrs. R. Penn Smith and Miss Myrtle Whitteley were among those thrown, but quickly recovered. The feature class of the afternoon, that of the Cornstalk Stakes for hunters with a value of \$1,000 to the winner, brought together the finest collection of hunters ever shown at Piping Rock and provided Arthur White, the judge, made with worky a decision giving Silver Crest, with the famous little lady in the saddle, was given the blue ribbon, with Mrs. Thomas Hitchcock's famous old 15-year-old gelding, Cavalier, being given the reserve. Mrs. Hitchcock rode the big hunter, and it was a grave disappointment for Cavalier has been practically unbeaten in all his remarkable years. Cavalier carried the afternoon won the first prize for ladies' hunters carrying up to 165 pounds and the class for horses regularly bred to the Meadowbrook or Smithtown blood.

CHARTER COMMISSION CHAIRMAN RECOMMENDS CHANGE

The chairman of the Charter Commission, William S. Pettit, chairman, made a report of the conference held in Manhattan with Mr. Bassett, Richard S. Childs and Robert Moses in reference to zoning Nassau County. Mr. Pettit stated to the Commission that the proposition was so vast that he would recommend that a subcommittee on plan and zoning be appointed; that this committee study the matter with the committee of experts, but that it should be decided that it would be better to have one law that would be county wide, although Mr. Bassett thought it would be better to have a zoning law that would not include cities or villages. The chairman pointed out how large portions of the Rockaways have been utterly ruined by the lack of zoning and restrictions. On the other hand he thought that the power to zone and restrict is a dangerous weapon, and should be given to the most competent and conscientious persons. The power to restrict may be the power to destroy values in one locality, but to preserve values in another locality.
