The Evening Post today presents its ranking of the amateur golfers throughout the metropolitan district. It has been compiled after a close scrutiny of the records and of personal observation. Records alone are sometimes misleading and I have sought to balance the list with a knowledge of the general caliber of play throughout the season.

Though Jess Sweetser played little competitive golf he was really brilliant in the events in which he participated. In the Lesley Cup matches he was outstandingly so. He won the Gold Medal tournament in flashing style. In the Southern open he played three fine rounds, the third being a 70. Jess quit after that because his health was not of the best.

In a special match, paired with Bobby Jones, he defeated Hagen and Hansen, his work being the best of the quartet. He scored a 68 at Asheville, eight strokes under par. He shot a 71 in the bankers' tournament and he and his dad won the Westchester father-and-son.

Phillips Finlay, the long-driving clubber from Shinnecock Hills, went to the semi-final round of the national amateur, where he was beaten, after a sanguine struggle, by Francis Conant. His card in the qualifying round was 72, 70-147. He was medalist and runner-up in the Eastern intercollegiate, semi-finalist in the North and South and scored 306 in the North-South open.

Rogers Homans, about the same age as Finlay and a friendly rival, had a net of 148 in the national qualifying, and gave Bobby Jones his hardest and was sustained fight. He was a semi-finalist in the North and South amateur and scored 302 in the North-South open. He won the New Jersey Junior, was semi-finalist in the metropolitan and winner in the New Jersey father-and-son.

Lauren Upson, who had a most erratic year in 1926, came close to the top of his game this year. He won the New Jersey amateur, was finalist in the metropolitan, won the Montclair invitational and was semi-finalist at Massachusetts and Greenwich. He failed to qualify in the national, having a score of 187.

Partisanship Excellent

William Barker of the New York Golf Club played brilliantly in the national municipal links championship, being under 70 several times and going to the final round against Carl Kaufman, where he lost in an extra-hole match.

Paul Haviland, last year's Yale captain, qualified in the national, where he lost in the first round to Ducky Taylor, was Crump Cup finalist, and went to the third round of the metropolitan. He won the Brooklawn invitational and played well in the intercollegiate.

Phil Fulkerson led the Long Island open for two rounds before sliding down into the pack, was finalist in the Long Island amateur, won the Apponaug tournament, took the medal at Greenwich, qualified in the metropolitan and was semi-finalist at Garden City.

L. L. Bredin won the Morris County tournament, was second in the Victory Cup, medalist and finalist at Garden City, qualified in the metropolitan and was semi-finalist at Massachusetts.

Mark Flanagan was medalist and runner-up at Lenox Hills, semi-finalist in the metropolitan and at Brooklawn.

A Youthful Star

Bobby Jones, the Arcolis youngster, won both the metropolitan and Long Island junior championships, beating Phillips Finlay in the final round of the former event.

R. W. Woolworth of Mount Kisco qualified in the metropolitan.

Richard A. Jones of Westchester Hills qualified in the national with a score of 138 and was beaten in the first round. He qualified in the metropolitan with 153, and lost in the second round. He was third in the Victory Cup, scoring 306, and had a 305 total in the Gold Medal. He also qualified in the Westchester amateur.

Max Kaesche won the Westchester amateur tournament, was finalist at Cherry Valley, semi-finalist at Shawnee and qualified in the metropolitan.

IMPOSING ARRAY FOR PRO TOURNEY

Metropolitan District Will Be Well Represented in National Golf Event

By H. F. MAMONEY
The metropolitan district will be strongly represented in the annual championship of the Professional Golfers' Association, which gets under way at the Cedar Creek Country Club, Dallas, Texas, next Monday.

Among its array will be Gene Sarason, Fresh Meadow; Johnny Farrell, Quaker Ridge; Jack Farrell, North Shore; Tom Harmon, Kudans River; Anthony Manso, Fairview; John Golden, North Shore; Willie Klein, West-ley Hills; Joseph Turnesa, Elmford; Wee Bobby Cruikshank, Progress Club, and William Melhorn, unattached.

Despite his dismal showing in the Oklahoma open Sarason will be the district's best bet. Gene had a total of 306 strokes for his four rounds at Lake George, 38 shots higher than the winner—"Light Horse" Harry Cooper of Los Angeles—but Gene was merely off form temporarily, for, less than a week previous, he won the metropolitan crown with a low total of 352 strokes.
